

Attaching the Motor Drive

1. Locate the threaded hole above the large Gear and thread in Bolt "A". (use Allen Wrench) (fig.1)
2. Attach Motor Drive to Mounting Stud and tighten Lock Knob (do not over-tighten). (fig.2)
3. Engage Motor Drive Gear with Large Gear on Mount. (fig.3)
4. Pull Spring up with Cord "B" and attach to Motor Drive. (fig.3)
5. Place 4 AA-Cell 1.5v Batteries into the Battery Holder. (fig.4)
6. Attach the wire with Jack from the Battery Holder to Motor Drive. (fig.5)
7. Turn Switch on Battery Holder to "ON". Turn to "OFF", when not in use. (fig.6)
